

INDUSTRIAL ROUTER

we200+

INDUSTRIAL ROUTER WITH VPN FOR REMOTE MAINTENANCE

WE200+ is a reliable and efficient 4G industrial router, that allows the remote access to any device, machine or plant through serial, Ethernet, USB interface and optical fiber.

It's the right choice for the remote configuration and maintenance. WE200+ is compatible with all devices having serial ports RS232/RS485 and USB, independently from the used protocol.

Thanks to the integrated Web Interface, WE200+ offers an easy and intuitive configuration, and doesn't require any particular training or specialization.

THE RIGHT SOLUTION FOR ANY REQUIREMENT

WE200+ is available in 4 different versions, according to the type of connectivity, that may be required by the user:

WE200+ 4G / OPT

- Ethernet
- Wi-Fi
- LTE
- OPT

WE200+ LAN / OPT

- Ethernet
- Wi-Fi
- OPT

WE200+ 4G

- Ethernet
- Wi-Fi
- LTE

WE200+ LAN

- Ethernet
- Wi-Fi

TECHNICAL SPECIFICATIONS

Power supply	9-32 VDC
Input	1 digital input (dry-contact)
Output	1 Relay output (1 A 230 VAC / 30 VDC)
Ports	USB Type-A 1 RS232 serial port 1 RS485 serial port 1 optical fiber port (optional)
Consumption	Average 500 mA, peak 2 A
Dimensions (L × W × H)	45 × 120 × 100 mm
Weight	217 g
Working temperature	-15 °C – +55 °C
Storage temperature	-25 °C – +85 °C
Humidity	0% – 80% (non condensing)

MAIN FEATURES

- Input/output control and monitoring
- Integrated Web Server
- Remote software upgrade
- Configuration backup/restore
- Multilevel user and groups
- Alarms via SMS/Email/Chat
- Commands via SMS/Email/Chat
- Plug-in support
- VPN
- Remote access over RS232 / RS485
- Remote access over USB
- Port forwarding
- Routing

MANAGE YOUR DEVICE THROUGH

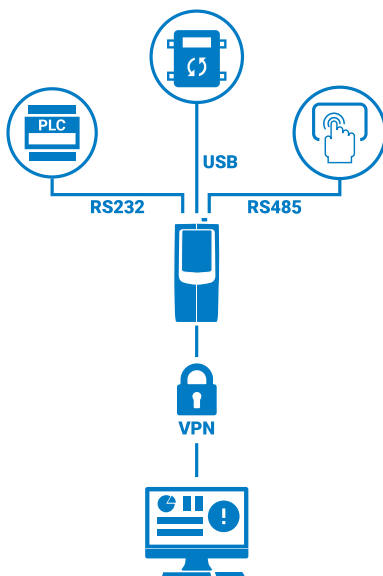

WEB SERVER

Log through browser with no need of additional software

USE MODES

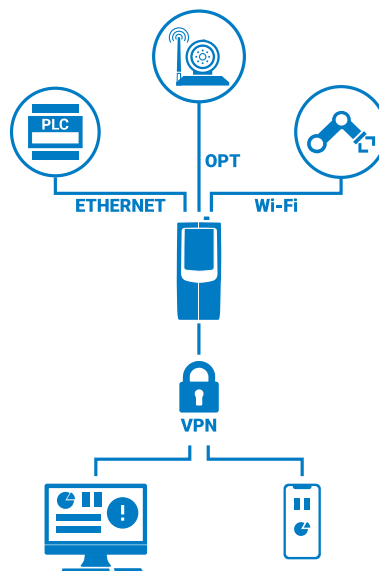

REMOTE ACCESS

Remote communication to any device/machine connected to one of the serial or USB interfaces.

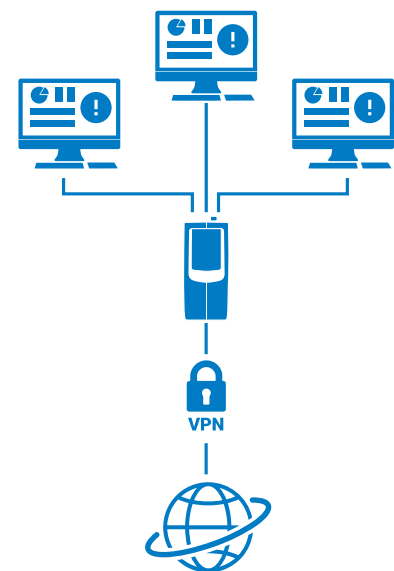

PORT FORWARDING

Secure remote access to one or more devices.

ROUTING

It supplies a secure connection to your devices.
